

## Landman - Heavy Oil and Gas-08652

### Job Description

Husky Energy is currently looking for a **Landman** in the Heavy Oil and Gas (HOG) Business Unit. In this role, you will be responsible for the execution of Mineral Land negotiations related to the acquisition, retention, evaluation and asset maximization of the mineral rights within a geographically defined area with Heavy Oil and Gas.

Specific duties will include:

- Creating land sale bids, negotiating farmins, farmouts, poolings, acquisitions, divestitures and similar agreements plus contributing to the management of the Business Unit's Petroleum and Natural Gas assets.
- Drafting, reviewing and analyzing contracts and lease agreements including the execution of Letter Agreements pursuant to corporate models and standards.
- Working closely with Business Unit technical specialists by attending geological and engineering technical (internal and external) meetings to determine exploration/exploitation and development strategy, its execution and the creation of value for the corporation as it applies to land involvement.
- Reviewing and approving mineral leases and contracts for the drilling recompletion and abandonment of wells.
- Working closely with the Mineral Land Administration and other land groups for the monitoring and handling of acquisitions, dispositions, farmins/farmouts, poolings, expiries and contractual obligations.
- Analyzing holdings of the company and of competitors to make recommendations for identifying value added opportunities including, but not limited to acquisitions or divestitures.

### Qualifications

The ideal candidate has the following qualifications:

- A B.Comm with Petroleum Land Management concentration and a minimum 8 of related experience is preferred. An equivalent combination of education, training and experience will also be considered.
- CAPL membership with the ability to grow/maintain a network of industry contacts
- Working knowledge of CAPL and related industry agreements, Crown and Freehold tenure documents
- Good working knowledge of Alberta and Saskatchewan Regulations with experience in the Alberta and Saskatchewan E&P environments
- The ability to work with a multi-disciplinary team of professionals under limited supervision to address and solve mineral land related issues
- A proven track record of successful value added negotiations with a knowledge of legal, economic and operational principles and issues
- Strong analytical, interpretive, interpersonal, mentorship, organizational, written, verbal communication and presentation skills with the ability to 'sell' an idea
- Strong CS Explorer, Accumap and Microsoft Office skills are necessary
