

Volunteer for Public Relations Committee

The Public Relations Committee is responsible for promoting the CAPL and the land profession within industry and the communities in which it operates. Our goal is to educate and create awareness of the role of the Landman and the contributions made by our Association. We have several standing subcommittees which are responsible for the planning and execution of these goals and activities. The Committee currently requires individuals to volunteer their time. If you are interested, please contact the Co – Chair, Cathy Mageau at (403) 517-6724.
